Big Data and Hadoop Development

1. Introduction

In this assignment you need to implement transaction concepts in Hive.

2. Objective

This assignment will help you to understand the concepts of transactions in Hive.

3. Prerequisites

Acadgild's VM, or Linux operating system with Hadoop and Hive installed in it.

4. Associated Data Files

Link: <https://acadgild.com/blog/transactions-in-hive/>

5. Problem Statement

Link: <https://acadgild.com/blog/transactions-in-hive/>

Refer the above given link for transactions in Hive and implement the operations given in the blog using your own sample data set and send us the screenshot.

Note: Hive 0.14 should be installed to implement the hive transaction property.

6. Expected output

N/A

7. Approximate Time to Complete Task

120 min
